School Committee Meeting Adjournment

In the interest of maintaining active participation on the part of students and other members of the community, the School Committee will not begin consideration of any new agenda items after 10:00 pm at any of its regular meetings. Items not yet discussed at that meeting will be placed on the agenda of the next regular or special meeting as the Committee so decides. This practice may be waived by majority vote of the School Committee.

This statement of limitation on the time of meetings in no way affects the validity of formal action taken at any time during a meeting should the School Committee be unaware of or choose to ignore the passage of time.
