

School Committee Policy:

#271

Searches

Desks, "cubbies" and lockers are public property the use of which is loaned to students. School authorities may make reasonable regulations regarding their use; these rules are published in student handbooks. The school retains the right to inspect these areas periodically and/or with reasonable cause to insure compliance with handbook rules and with state and federal law. Students, however, have the right to privacy in their lockers and desks consistent with the rules which have been established.
